1 Bank 3
2 Bank Account 5
The bank module defines the concept of bank and account.
A bank links a party with a BIC.
Chapter 1. Bank
A bank account is defined by a Bank and at least one number.

• The Bank is the bank where the account is set.
• The Owners are the parties who own the account.
• The Currency is the default currency of the account.
• The Numbers are the different possible number that identifies the account. There are two types defined by default:
  – IBAN
  – Other
