1.1 Product Image . . . . .	3

The *Product Image Attribute Module* adds attributes to product images.

The *Product Image Attribute module* extends some concepts.

## 1.1 Product Image

The *Product Image* concept is extended to store attributes from the set defined on the product. Those attributes are used to select for which variants the image applies.

**See also:**

The [Product Image](#) concept is introduced by the [Product Image Module](#).
