The *Purchase Price List Module* allows price lists to be defined for suppliers.
The *Purchase Price List Module* extends the following concepts:

### 1.1 Party

When the *Purchase Price List Module* is activated, Price List can also be defined for use with purchases from the party.

*See also:*

The *Party* concept is introduced by the module *Party Module*.

### 1.2 Purchase

When the *Purchase Price List Module* is activated, the unit price of a product is calculated using the Price List if one is defined for the supplier and if the Product does not have a Product Supplier Price.

*See also:*

The *Purchase* concept is introduced by the module *Purchase Module*.
